Report from Health Inspector Maria Schmitt:

Aside from what is on the report, Maria visited Margie's today and they were conditional due to the temperatures in the deli case being too warm. She will go back there soon rather than the week or two with other types of conditionals. The inspections that were conditional from last month are all fine now. Also, there was a dog bite on Austin Street in Metro. She will likely visit the address because the report had unknown for the biting animal. Maria mentioned that Metropolitan submitted all its paperwork for the pool license, and she will inspect them before they can open. Secretary mentioned that they also need approval from the Electrical Inspector.
